

# Smith & Wesson®

## DRAFTPERSON

Smith & Wesson, the 156 year old firearms manufacturer, has an immediate need for a Technical Support Team Member III – Draftsperson in our Product Engineering Department. The successful candidate will be responsible for the following:

- Familiarity with current geometric tolerance and ANSI standards, and good drafting practice.
- Extensive SolidWorks CAD experience including solid modeling and drafting.
- Competence with common office software including MS Word, MS Excel, MS Power Point and Matrix.
- Ability to interact with all levels of S&W management, employees and vendors to accomplish any assigned task that leads to the creation or revision of Smith & Wesson product drawings and other presentation documents and media as required.

Candidates must have an Associate's degree technical school certificate or 2 years' minimum equivalent experience in drafting and design. If you are interested and meet the requirements of this position, please forward your résumé to [ksalvador@smith-wesson.com](mailto:ksalvador@smith-wesson.com) or mail it to: Smith & Wesson Corp., 2100 Roosevelt Avenue, Springfield, MA 01102-2208
